Portland Summer BBQ Potluck in the Park

We are hosting our next Summer BBQ/Potluck on:

Tuesday, July 30th: 5—7 PM
Creston Park
4220 SE Rhone St,
Portland, OR 97206

We hope you can join us for our annual Summer BBQ/Potluck at Creston park in SE Portland. This is an opportunity for Portland Tribal members and their families to get together, visit, have some food, share their favorite dish and enjoy the summer weather.

Unlike previous years, this year's BBQ will be later in the day at 5 PM and at a new location. Since parking can sometimes be limited at many Portland parks, we encourage people to consider carpooling with family or utilizing public transit (tri-met #9 bus) if possible.

For questions, please call Rebecca Downey, Area Office Supervisor at (503) 238-1512.

For elders transportation, please call Angelina Artiago at (503) 760-3899.

We look forward to seeing you there!

Elder's Shopping Day

The next elders shopping days will be:

July 3rd & 17th at 10 AM

To reserve your spot on the bus, please call your Elders program area representative, Kay Steele (503) 760-4746 or Angie Artiago (503) 760-3899.

Siletz Tribal Head Start Enrolling Now!

Congratulations to the students at the Portland Siletz Tribal Head Start. You worked hard this year, learning and growing. We are proud of you, Teachers Tonya, Maria and Sarah.

Did you Know?

Head Start helps children grow socially, physically, mentally emotionally, and gain confidence in themselves.

The classroom is located less than a mile from the Portland Area Office, providing easier access for our SE parents and more opportunities for collaboration between the Area Office Staff and the Head Start Teachers. If you have a child that will be age three or four by September 1st, pick up an application from the Area Office today. Applications can also be mailed to you by calling 1 (800) 922-1399.

Enrollment Information

Attention:

The Address update Deadline for Per capita is Friday July 12th!

Annual Deadlines for Enrollment:

The deadline to submit an Application for Enrollment, name changes, blood quantum correction and requests for relinquishment of Tribal membership is the **2nd Friday** in the months of January, April, July and September. The Enroll-

ment Committee reviews the applications and requests at their meetings in the months of February, May, August and October. Tribal Council takes action on the Committee's recommendations in March, June, September and November. There is a blackout period for Enrollment Actions from December 1st to Election Day (1st Saturday in February) annually.

Social Security Cards

Letters were recently sent out for minors who do not have a social security card on file. If you received a letter, please get a COLOR copy mailed directly to Enrollment or take to an Area Office to have a COLOR copied made and sent to our office.

Phone Calls and Email Blasts

Occasionally, Tribal Departments and Area Offices send out "robo calls" to give information to a group of people; Elders or by service area, of events that are occurring such as fish distribution, heat waves, etc. In order to receive the phone calls you must have a current phone number on file with Enrollment. You can also sign up for email notifications that are sent out by emailing angelar@ctsi.nsn.us.

Children NOT Enrolled That Could Be

To be eligible for enrollment with the Tribe an applicant must be:

- Not enrolled with another Federally recognized Tribe;
- Be the biological descendent of a Siletz Tribal member;
- Have a blood quantum of 1/16 or more (*the Siletz parent needs to behave a blood quantum that is equal or more than 1/8, 2/16, 4/32, 8/64, 16/128, 32/256*);

- Submit their original State issued birth certificate; and
- Submit their original Social Security Card.

The originals are examined by staff, copies made and the originals are returned via certified mail when not brought in to a Tribal office directly.

Within the 11-county service area, the Enrollment Department is aware of **at least 20 children that are not enrolled that could be**. There are likely many more and we would like for Tribal members to get their child's application submitted as soon as possible. When your child is not enrolled with the Siletz Tribe, some of the detriments are:

- Your child CAN receive direct care from the Siletz Clinic and Purchased/Referred Care through the age of 18, however their health care coverage from the Tribe ends on their 19th birthday;
- Your child DOES NOT accumulate funds in a Trust account from annual per capita distributions;
- Your child is NOT ELIGIBLE for JOM (Johnson O'Malley) funds for education and sports fees;
- Your child is not eligible for Siletz Tribal Youth Activity funds that is available to all Tribal Youth regardless of where they reside (\$75.00 per year);
- When your child is an adult they WILL NOT be eligible for Adult Education, Adult Vocational Training (AVT), and Higher Education funding;
- When your child goes to college, they would not be able to apply for Tribal Student Housing Assistance; and
- There are many other benefits to being a Siletz Tribal member they would be unable to receive.

Community Health

Diabetes Support Group

The date for our next Diabetes Support Group-Luncheon will be determined at a later date. Stay tuned to future articles in the Portland Potlatch.

We currently do not have a Community health Advocate (CHA) at this time.

If you have any CHA related questions, or matters please call Rebecca Downey, Area Office Supervisor or Andrew Johanson, Area Office Clerk, for assistance.

Thank you. Verdene.

Your Monthly Meditation:

Your Issue:

"I Want to feel a deeper connection to the people around me."

Your Meditation:

The ancient Tibetan technique called meditation on the benefactors. Sit quietly and think of someone who has unconditionally loved or supported you, someone who saw what was best in you and helped it flourish. Close your eyes and visualize that person behind and slightly above you. Imagine him or her radiating love, and that love is showering down on you in the form of beautiful, golden light. Sit and allow every cell of your body to be bathed in it. Then visualize someone in front of you, someone you want to share the light with. Let it pour down through you, through your heart center, and bathe the person in front of you. You can visualize one person, your whole family, the whole world. It fosters a sense of connectedness. —D.S.

Heatstroke:

Sometimes babies are so peaceful and quiet in the backseat that we can forget they are even there, and it can be tempting to leave a sleeping baby in the car so we don't have to wake them up while we quickly run into the store. But leaving a child alone in a car can lead to serious injury or death from heatstroke, even in cooler temperatures.

Here's some helpful information and tips for parents about heatstroke prevention for kids.

Hard Facts about Heatstroke!

- On average, every 10 days a child dies from heatstroke in a vehicle. In more than half of these deaths, the caregiver forgot the child was in the car.
- A car can heat up 19 degrees in just 10 minutes. And cracking a window doesn't help.

- Young children are particularly at risk, because their bodies heat up three to five times faster than an adult's.

Top Tips for Preventing Heatstroke

Reduce the number of deaths from heatstroke by remembering to ACT:

1. **A**void heatstroke-related injury and death by never leaving a child alone in a car, not even for a minute. And make sure to keep your car locked when you're not inside so kids don't get in on their own.

2. **C**reate a habit; Keep a stuffed animal or other memento in your child's car seat when it's empty, and move it to the front seat as a visual reminder when your child is in the back seat. Or place and secure your phone, briefcase or purse in the backseat when traveling with your child.

3. **T**ake action. If you see a child alone in a car, call 911. Emergency personnel want you to call. They are trained to respond to these situations.

Behavioral Health—Mental Health Services

In the heat of summer:

Summer plans are established and the weather is being more cooperative than not. Children are embracing their freedom, while parents may be struggling to keep them entertained while also working full-time. Parks with water features are a great source of entertainment. To function well, our brains need to keep cool and hydrated, so be sure to pay attention to signs of heat exhaustion, and carry a water bottle with you.

Boost your mental health in the summer to get ahead of those potential winter blues:

1. Exercise— It can be harder to get out and be active with this heat, but it's important to find a way to boost endorphins with at least 30-45 min of cardio-type activity each day. Plan your day; are you more likely to workout in the early morning hours, before it gets hot, or in the evening once it has cooled down?
2. It's an important time of year to stay connected with people to keep depression at bay. Try making at least one plan with friends each week, and stick to it (most people routinely want to cancel plans when it gets hot, but try and resist the urge).
3. Research says 20 minutes of sunlight a day (don't forget sunblock!) can lift your mood noticeably. What creative ways can you think of to get sun each day? Do some yardwork, perhaps, or take your dog for a walk? Try and get out in it!

Traditional Coping

July is a great month to get your children to culture camp (July 9th—11th). And, as a Siletz adult, it's a great time to volunteer and help shape our youth into well-rounded individuals who take pride in their Native heritage. Summer can be a

time of difficulty for our Elders, when it's getting hot. It's a good time to reach out and make sure they stay cool and hydrated. The Behavior Health Department will be hosting a few various outdoor activities that tribal members in the Portland and Salem areas are welcome to attend (and many have transportation available). Contact Rachel or the Siletz Behavioral Health Department for more details.

Near the Portland office, check out this park with a splash pad:

To be eligible you must be enrolled in the Siletz Tribe and be between elementary school through high school level.

Home Visiting

The Home Visiting program is open to Siletz families in our 11 county service area. We serve families prenatally until the child turns 3 years old (must begin before child turns one year). Our Home Visiting program uses the Family Spirit model and curriculum developed by the John Hopkins Center for American Indian Health and is designed to increase parenting knowledge and skills, link families to resources and provide encouragement to help parents engage in positive parenting.

Recent graduates of the program say:

- “A million times over I'd recommend it to everyone. It makes all the difference. I don't know what I'd have done without it.” Brittany
- “It was nice to know someone was there if I needed help, or to get some advice.” Heather
- “It reinforced my parenting skills. Helped to

know I am doing it right.” Allison

If you are interested in learning more about the program please contact Lori Christy, (503) 390-9494 X 1863.

Tobacco Prevention Education Program (TPEP)

Health Effects of Secondhand Smoke

Secondhand smoke is the combination of smoke from the burning end of a cigarette and the smoke breathed out by smokers. Secondhand smoke contains more than 7,000 chemicals. Hundreds are toxic and about 70 can cause cancer.

Since the 1964 Surgeon General's Report, 2.5 million adults who were nonsmokers died because they breathed secondhand smoke.

There is no risk-free level of exposure to secondhand smoke

- Secondhand smoke causes numerous health problems in infants and children, including more frequent and severe asthma attacks, respiratory infections, ear infections, and sudden infant death syndrome (SIDS).

- Smoking during pregnancy results in more than 1,000 infant deaths annually.
- Some of the health conditions caused by secondhand smoke in adults include coronary heart disease, stroke, and lung cancer.

What can we do to help prevent secondhand smoke exposure?

Smoke outside

People who smoke inside housing units expose everyone who lives in the unit to secondhand smoke exposure. Not only do those who live in the unit get exposed to secondhand smoke, but those who visit will also be exposed to secondhand smoke. Smoke can linger in housing units for hours until it settles and causes third-hand smoke exposure.

Lets work together and help protect the Health of our people!
