Our office hours are Monday through Friday 8:00am – 4:30pm. We are closed on Federal and Tribal Holidays. We would appreciate it if you could make it into the office in plenty of time to complete your business by the close of business.

**The position of the Tribe on coming into any Tribal Offices under the influence of drugs and/or alcohol is that it will NOT be tolerated. That also includes threats of any kind and/or unruly behavior. If you exhibit any of this type of behavior, you will be asked to leave.**

We do not accept collect calls. An option is to call 800-922-1399 number and asked to be transferred to our office.

We have a 5¢ per page charge for copies, faxes and printed materials. *Note: If the documents are specifically requested by a Tribal program there will be no charge.*

If you would like to receive your newsletter via email, call Cindy or email her and make that request.

# Announcements & Community News

AIDS is a medical condition. A person is diagnosed with AIDS when their immune system is too weak to fight off infections.

Since AIDS was first identified in the early 1980s, an unprecedented number of people have been affected by the global AIDS epidemic. Today, there are an estimated 34 million people living with HIV and AIDS worldwide.

Around 2.7 million people became infected with HIV in 2010. Sub-Saharan Africa has been hardest hit by the epidemic; in 2010 over two-thirds of AIDS deaths were in this region.

The epidemic has had a devastating impact on societies, economies and infrastructures. In countries most severely affected, life expectancy has been reduced by as much as 20 years. Young adults in their productive years are the most at-risk population, so many countries have faced a slow-down in economic growth and an increase in household poverty. HIV and AIDS in Asia causes a greater loss of productivity than any other disease. An adult's most productive years are also their most reproductive and so many of the age group who have died from AIDS have left children behind. In sub-Saharan Africa the AIDS epidemic has orphaned nearly 15 million children.

In recent years, the response to the epidemic has been intensified; from 2002-2008 spending on HIV and AIDS in low- and middle-income countries increased 6-fold. Since 2008, spending has not increased so substantially, but it is still significantly higher than it was before 2002. The number of people on antiretroviral treatment has increased, the annual number of AIDS deaths has declined, and the global percentage of people infected with HIV has stabilized.

***Inspirational thought for this month:  
To believe in something and not to live it is dishonest.***

Tribal Members can now go into any Area Office to have a picture taken for a Tribal ID done. Your picture and signature will be sent to Siletz where the actual ID will be made and mailed to you. You must have an appointment for an ID Card. Call Bev to schedule an appointment.

The CARE Program offers confidential, safe and culturally appropriate education and advocacy services to Native American victims of domestic violence, sexual assault, dating violence and stalking, as well as victims associate with Native families, such as a non-native spouse.

An advocate is available to provide assistance to access services, including personal protective orders, shelter or housing, Tribal program information and other program resources.

It is the Program's mission to educate and empower our community to live a healthy, non-violent lifestyle that strengthens spirit for future generations.

## Two Firewood Areas Now Open

The Natural Resources Department now has two areas open for Tribal member personal use firewood cutting. The **Logsden Road** unit (located just east of Siletz) is open seven days a week. It has a mixture of alder, hemlock and some fir. The **Sam Creek #4** unit (9½ miles from Siletz) is open by appointment on weekends only. It has larger fir and spruce on three landings. **Permits are required** and may be obtained at the Tribal Natural Resources office in the Admin Building in Siletz from 8AM to 4:30 PM on weekdays. Maps and directions are also available at the same location. Permits will be issued to Siletz Tribal members only, who will need to show their Tribal ID card and provide the license number of the vehicle they will be using to haul the wood. Out-of-the-Siletz-area woodcutters may call the numbers below to have a permit mailed to them. The permits are for Tribal member woodcutting for **personal use only**. This firewood **may not be sold**. The person named on the permit **must be present** when cutting and hauling the firewood. Tribal members wishing to cut wood for Tribal elders must present a signed note from the elder stating that the individual is authorized to cut firewood on their behalf when requesting a permit. The note must include the elder's Tribal ID number. Permits are good for 4 weeks and allow up to 2 cords of wood to be cut on each permit. Each Tribal member is allowed up to 5 cords total per year from Tribal firewood units. For more information, stop by the Natural Resources Office or call Natural Resources Manager Mike Kennedy at 1-800-922-1399 ext. 1232 or (541) 444-8232.

### 2017/2018 HUNTING/FISHING/GATHERING INCENTIVES

## SILETZ TRIBAL FDPPIR

We would like to see more people sharing their recipes on our Facebook page.

I hope everyone has had a chance to check out the new income guidelines and the increased (up \$50 to \$400) standard deduction. Remember, we take your gross income and multiply it by 20% tax deduction and then do the deductions, like child care, child support and the standard deduction if you pay rent or utilities. Of you are over 62, and have out of pocket medical expenses we can also deduct a portion of that. All we need is 1 Tribal ID (any federally recognized Tribe) in the household and we can certify the entire household. If you have foster children that are tribal, we can also certify the household and we count the payments that are received for those children.

We also count adoption subsidies if you have adopted tribal children.

## Holiday Stress? Try These 5 Tips for a Heart-Healthy Holiday Season

He's a mean one, alright. If the Grinch has stolen your healthy holiday, check out these tips from Richard Stein, professor of medicine and cardiology at the New York University School of Medicine in New York City and a spokesman for the American Heart Association.

### 1. Go in with a plan.

For example, make a pact with yourself during the holidays: "For these three weeks I will get at least 30 minutes of activity per day, I'll have a reasonably healthy breakfast and lunch and limit the sweets. And I'll leave my meds out on the dresser so I won't leave the house without having taken them."

### 2. Beware of party perils.

Special holiday events often serve up extra helpings of high-fat foods. If you're a guest, plan on eating a healthy snack before you go and consciously choose to eat less at the event. If you're the host, challenge yourself to whip up a delicious and heart-healthy menu. Your guests will probably thank you!

### 3. Stay active—even in the hustle and bustle of the season.

Sprinkle in some healthy behaviors with your daily activities. If dinner is going to be a feast, opt for a light lunch, then take a vigorous walk. When the kids are home from school, squeeze in some active chores and trips to the park.

### 4. But not too active.

Give yourself the gift of peace. Control your own schedule and don't overbook yourself.

### 5. Lay out a plan for January, February and beyond.

Your poinsettia's pooped and the eggnog's gone. Now what? It's great that you want to start doing healthy things—like exercising 30 minutes a day or making an appointment to get your blood pressure checked—but don't go dashing through your to-do list too fast or you might not stick to your plan. Lay out realistic steps for the months ahead. For example, instead of joining a gym, you might want to start a vigorous walking program first. It's free, and it's a great way to fit in more physical activity.

Confederated Tribes of Siletz Indians

Tribal Maternal, Infant, & Early Childhood Home Visiting Program

Naytlh - 'a "We Carry the Children"

Our home visiting program provides parenting and life skills for successful and positive parenting. We serve native families that are either expecting or have infants under the age of twelve months, continuing through the child's third birthday. We travel throughout the 11 county service areas of the Confederated Tribe of Siletz Indians. The model and curriculum we provide is called Family Spirit and was developed by the John Hopkins Center for American Indian Health. We are funded by the Tribal Maternal, Infant, Early Childhood Home Visiting Program (TMIECHV).

Family Spirit is Evidence based and culturally sensitive to native families. Parents gain knowledge and skills for their developing infant through 36 months of age. We also focus on goals and healthy living for parents as a support system for the family as a whole. The program consists of 63 lessons over a 39 month period and is divided into six modules. The modules are broken into these categories: Prenatal care (9 lessons), infant care (16 lessons), your growing child (11 lessons), toddler care (9 lessons), my family and me (6 lessons), and healthy living (12 lessons). While this may seem like a big commitment the lessons vary from 30 minutes to 90 minutes and some can be combined together as we work with your schedule. Family Spirit suggests we deliver at least 32 lessons to our families in order for families to benefit from the evidence based curriculum. For the full benefits of the program we would like to provide all 63 to our families. As a thank you for participating in our program we offer some incentives which we will be happy to share with you upon enrollment in our program.

During your participation if you feel like the timeline of lessons is too often we can adjust the home visits to accommodate your schedule while still keeping the program's timeline in mind. We are a voluntary program that delivers home visits in the comfort of the homes of our families. If you would like to get more information and or meet our home visiting staff we would love to schedule a home visit to give you a full overview of the program.

### Coming to Siletz in January:

A Gottman-inspired Couple's Retreat is currently under preparations for Friday, January 12th, 2018. It's the start of a new year, New Year's Resolutions are underway, why not work on your relationship while you're feeling that motivation?

### What is a Gottman-inspired Couple's Retreat?

- 1) An opportunity to reconnect with your partner and work on little issues before they become big.
- 2) A day to relax, enjoy your time with your partner, eat good food and learn how to take your relationship to the next level.
- 3) An opportunity to learn new tools from Gottman's proven methods to help your relationship become what you and your partner agree you want.

### How do we register to go?

All couples wanting to attend the retreat will need to be registered by myself, Rachel Adams, the Mental Health Specialist for the PAO and SAO. Once registered, couples will be asked to complete a survey online. Once the survey is completed, cou-

ples approved for registration will be given further instructions..

### Transportation to Siletz?

It is currently under research to see if transportation can be made available to all registered couples, from both the Portland and Salem area offices.

### Childcare?

Childcare is not likely at this time, but is still under research as well.

### Traditional Coping

While Gottman's methods are tried and true, the Siletz peoples are still encouraged to participate in traditional methods of healing. It is a good time to attend a sweat and pray for clarity on new goals to set. As always, drum circles, talking circles, and smudging are different ways to stay connected with our ancestors and pay tribute to our roots. Some people find peace in calling on Creator for clarity and health.

**GOTTMAN METHOD**  
This is an evidence based practice that helps couples work on their relationships. It starts with an extensive survey that provides detailed information to the therapist and is used to create the ultimate and unique treatment plan for the couple. Topics explored include: (a) The Four Horsemen (the 4 factors most likely to cause friction in a relationship – Criticism, Defensiveness, Contempt and Stonewalling; (b) Aftermath of a Fight and (c) Love Maps.
