Merkley, Wyden, Walden, DeFazio announce passage of legislation to return Tribal control over private lands

WASHINGTON – Oregon's U.S. Sens. Jeff Merkley and Ron Wyden, with Rep. Greg Walden (R-OR 2) and Rep. Peter DeFazio (D-OR 4) announced May 16 that Congress has passed the Oregon Tribal Economic Development Act, which allows certain Tribes in Oregon, including the Siletz Tribe, to lease and sell property that they own.

"It's absurd that Tribes were forced to get congressional approval before they could develop property that they privately own," Merkley said. "Several Oregon Tribes asked me for help on this issue as they encountered barriers to development projects and I could not be more pleased to see it heading to the president's desk to be signed into law. This legislation is critically important to Tribal sovereignty and economic growth, allowing Tribes to take ownership over development opportunities on their reservations."

"Tribes in Oregon should have the authority to set their own economic course and an essential piece of that decision-making must be the flexibility to develop their privately owned property," Wyden said. "I am gratified that common sense and fairness have prevailed so that Tribes throughout our state can choose to pursue development opportunities that create jobs and revenues."

"Passage of this measure will help improve the lives of Oregon Tribal members by giving them new opportunities to manage their lands without unnecessary

federal red tape," Walden said. "I look forward to President Trump signing this bipartisan measure into law."

"Throughout our nation's history, our terrible federal Indian policy has decimated Tribes not only through displacement, but through economic discrimination as well," DeFazio said. "In Southwest Oregon, the INIA made it impossible for the Confederated Tribes of Coos, Lower Umpqua and Siuslaw Indians in my district to fully function as a sovereign nation, acting as a roadblock to the Tribe's economic development. I'm proud to help right a historic wrong by exempting the Coos from its unnecessary restrictions."

Currently, under the Indian Non-Intercourse Act, Tribes are required to get federal approval to purchase, sell, convey, warrant or lease lands they own privately. This makes it difficult, expensive and impractical for Tribes to seize economic development opportunities when they must get approval from Congress every time they want to obtain a commercial mortgage for their non-trust property.

The Oregon Tribal Economic Development Act allows certain Tribes in Oregon to forego that additional approval on privately held lands. The bill does not affect property that is held in trust by the United States, which means the federal government holds the legal title to the land in trust on behalf of a Tribe and the Tribal government manages the land for the communal benefit of the Tribe.

Merkley and Wyden led the act in the U.S. Senate, and Walden and DeFazio led a companion bill in the U.S. House of Representatives.

The Tribes in Oregon impacted by this bill include the Confederated Tribes of Coos, Lower Umpqua and Siuslaw Indians; Confederated Tribes of Grand Ronde; Confederated Tribes of Siletz Indians; Confederated Tribes of Warm Springs; and the Cow Creek Band of Umpqua Tribe of Indians.

"We give great thanks to Sen. Merkley, Sen. Wyden, Rep. DeFazio and Rep. Walden for their hard work to secure the passage of S 1285, the Oregon Tribal Economic Development Act," said Chief Warren Brainard of the Confederated Tribes of Coos, Lower Umpqua and Siuslaw Indians. "This bill advances the potential for economic development for Tribes in Oregon by strengthening our self-sufficiency and self-determination and ensuring the equality of Tribes to buy and sell fee lands like other Americans. It is a great day for Tribes in Oregon."

"Economic development and investment is vital to improving the lives of our Tribal members," said Cheryle Kennedy, chair of the Confederated Tribes of Grand Ronde. "This bill removes a significant barrier to the Tribe leasing and developing fee land. The Tribe is grateful for Sen. Merkley's leadership on this issue and his role in passing the legislation."

The next step for the legislation is to be signed into law by the president.

Warm Springs Museum fundraiser

Representatives of the Siletz Tribe attended a fundraising event in support of the Warm Springs Museum – the event was in Portland. The museum celebrated the Warm Springs Tribe's rich history and its 1855 treaty.

The Warm Springs Tribe also hosts the Pi-Ume-Sha Treaty Days celebration, with many other activities and their annual pow-wow held in Warm Springs.

National Indian Gaming Association

Lorraine Butler and I attended the National Indian Gaming Association (NIGA) conference and annual tradeshow in Las Vegas, Nev. This was one of the largest ever hosted by NIGA.

Important gaming issues are discussed, regional area caucuses are held, resolutions are adopted and this year was an election year for the vice-chairman and treasurer.

NIGA is a strong voice for Tribal gaming, with its headquarters in Washington, D.C.

Self-Governance

The annual Self-Governance Conference was held in Albuquerque, N.M. Tribal Council and appropriate staff were in attendance.

Siletz received recognition for being in the second tier of self-governance Tribes; a gift was received by Tribal Council member Angela Ramirez.

Oregon Governor's Tourism Conference

I attended the Oregon Governor's Tourism Conference in Bend this past month. Because Chinook Winds is one of the sponsors, I had the opportunity to address the conference attendees.

Besides promoting the Oregon Coast and Chinook Winds, I requested that the nine Tribes receive recognition for their pow-wows, history and cultural events that take place.

Elders Honor Day

Our elders hosted a very large and very nice Elders Honor Day. Thank you to the committees and Chinook Winds for hosting a great event.

Chemawa Indian School

Our Oregon congressional delegation requested and held a meeting at Chemawa Indian School. Concerns had been raised by Oregon Public Broadcasting (OPB) about some concerning issues with the school.

Because the Bureau of Indian Affairs and the Bureau of Indian Education failed to respond to requests from the congressional delegation, a meeting was requested with school officials to respond to the information reported by OPB. Oregon Tribes were invited to participate in the formal meeting.

As a result, Chairwoman Cheryl Kennedy of Grand Ronde and I were asked to come up with five recommendations that

we would like to see implemented at the school. The bottom line was to address those issues that were a concern to all in attendance.

The OPB series on the school can be seen on YouTube.

Detroit Dam Fish Passage Project

I attended a public comment meeting on the Fish Passage Project that is being promoted at Detroit Dam. It was well-attended by local officials and Tribes who had concerns and questions regarding the process.

More information will be forthcoming as scientists and citizens get their questions answered. The City of Salem is opposed to the project as it may affect its water supply.

On weekends and during the weekday hours of 5 p.m. to 8 a.m., the number to the Behavioral Health front desk is forwarded to Lines for Life, where you will be connected with a live mental health counselor.

The counselor will do everything he/she can to help de-escalate, advise and support.

Afterwards, this information can be shared with our mental health counselor so follow-up care can be provided.

Of course, if there is an emergency and you fear that you or someone else is in imminent danger, please call 911. That's always the fastest way to get help.

Last day to update mailing address in time for per capita checks is July 13

The last day to get your mailing address updated in time for your **per capita check** to be mailed to a new address is **Friday, July 13, 2018**, by the end of the business day. Any address changes after that date will affect the mailing of the per capita check, causing a delay in receiving it.

Please see the information below about address changes and Missing Moccasins. For the full policy regarding per capita checks, please see the Tribal Member Distribution Ordinance on the Tribal website at ctsi.nsn.us under Government Listings > Tribal Ordinances.

One of the popular questions is **“How much is per capita going to be?”** That amount is calculated on July 1, taking into account the amount to be distributed, the number of enrolled Tribal members alive on that day and postage costs.

On Monday, July 2, after 12 p.m., you can call **541-444-8224** to hear an automated recording of the amount as well as going to the Tribal website, under the opening page of the member area login, for the written announcement.

Where is my per capita check?

Per capita checks are going to be mailed on Monday, July 31, to the **current** address on file with the Enrollment Department.

- The Tribal Member Distribution Ordinance requires distribution of

checks to initially be mailed; therefore it cannot be picked up at the Siletz Tribal office. Per capita checks are cannot be direct deposited.

- Mail from Siletz takes as long as four days to get to an address in Portland, Salem and Eugene. Please allow for the “snail mail” time before calling to see where your per capita check is.
- If you are a Missing Moccasin as of Friday, July 13, your check will be held until a correct address is submitted. If you are a Missing Moccasin and update your address between Monday, July 16, and Tuesday, July 31, the per capita check will be mailed on Wednesday, Aug. 1. All other Missing Moccasins who update their address after Aug. 1 will have their checks mailed when the address update is received.
- The adult Missing Moccasin list is now on the Tribal website on the Enrollment page under Government Listing. Please check there to see if you know anyone who is listed.
- Policy states you must wait 15 business days (in the case of per capita checks until Aug. 22) from the time of mailing before you can submit a request for a “stop payment” and have the check re-issued. This allows time for the check to be returned if it is “undeliverable” to the address to which it was mailed.
- If your check is returned as “undeliverable,” you must submit an address

update in order to have your check re-mailed.

Missing Moccasins do not receive their per capita checks on time!

If someone does not have a good address and phone number on file with Enrollment, that person is considered a Missing Moccasin.

Please check the list on the Tribal website for anyone you might know. Missing Moccasins do not receive this newspaper, election mail, per capita checks, 1099 forms and other important mail from the Tribe.

Are you a parent of a minor Tribal member who did not receive a statement of his/her Minor Trust account earlier this year? It could be that your child is a Missing Moccasin.

Address Changes

If you have recently moved, even if you have a forwarding address on file with the post office, please get your Address & Contact Information Update form in as soon as possible. You can get the form on the Tribal website, from any Tribal office or contact the Enrollment Department to have one mailed to you.

All address updates must be in writing to ensure that you have requested the address to be changed. This is for your own security.

As a note, “General Delivery” is **not** acceptable as a mailing address as it is

only temporary and the post office will only hold the mail for a limited time for delivery. We had a large amount of “General Delivery” mail returned and this is not effective in getting mail to Tribal members when we need to.

It is much better to rent a post office box if you are not able to use a permanent address somewhere else. If this is a concern for you or someone on the Missing Moccasin list, call 800-922-1399, ext. 1258, or 541-444-8258 and we will work with them to figure out a permanent address solution.

Food ways to avoid depression: Pay close attention to what you eat

By Nancy Ludwig, MS, RDN, LD, Siletz Tribal Head Start Nutrition

As part of my role as consultant nutritionist to Siletz Tribal Head Start, I offer information for families. The food ways in this modern world actually appear to be a set up for depression. Applying the basic principles below can help to avoid depression for our children and entire community. Interestingly, these principles are consistent with my understanding of traditional foods.

I am a big fan of Dr. Kelly Brogan, psychiatrist. Dr. Brogan has become an advocate for nutrition as the foundation to reclaim vitality while learning the truth about mental health.

She authored a groundbreaking book, *A Mind of Your Own*, and created a 30-day program called Vital Mind Reset. Her website is kellybroganmd.com/.

Her recent article suggests 5 rules for eating away your depression and covers the following topics: 1. Avoid Trigger Foods, 2. Go Organic, 3. Guard Against Deficiencies, 4. Restore Your Microbiome and 5. Eat Consciously.

By **avoiding trigger foods**, we are more likely to avoid an inflammatory response in the gut. Symptoms of inflammation, such as fatigue, brain fog, flat mood, PMS and constipation, are all frequently reported by depressive patients.

These signs of systemic inflammation are psychiatric pretenders – they mimic symptoms associated with mental illness – which explains why depression has been called an inflammatory disorder.

To heal inflammation in the body, eliminate foods that are known to be inflammatory triggers. Purge your pantry, tossing out all refined sugars, dairy, gluten, grains (including corn), soy, GMOs, coffee and alcohol. None of these foods are traditional foods, except that some Tribes have embraced traditional practices with corn.

Focus on food close to its natural state. When determining trigger foods, a strict 30-day cleansing phase is suggested with attention to symptoms prior to reintroduction of any of these foods.

Going organic may not be as costly as we might think. People naturally prefer the most flavorful foods, which as nature would have it, tend to be organic. Non-organic foods contain higher-than-ever levels of pervasive pesticides and herbicides like glyphosate, which are known to cause endocrine disruption, damage DNA and even cause birth defects.

By choosing a whole foods-based organic diet, you not only get the healthiest and best-tasting foods, you support the long-term health of our species and the planet. This also supports the practice of looking forward for the health of the next seven generations.

Guarding against deficiencies is critical when there is overuse of pesticides and herbicides because they deplete the soil used to grow our food. Going organic helps, but denatured soil isn't the only culprit behind nutrient deficiencies.

A person can take in adequate nutrients, yet factors like stress, smoking, pharmaceuticals and environmental toxicants often interfere with the body's ability to

absorb them. Western diets are frequently found to be lacking in the following nutrients, all of which are essential to mood and energy regulation: Vitamin B-12, magnesium, zinc and essential fatty acids.

These nutrients are often low in people with psychiatric conditions. Include dark, leafy greens; oily fish such as wild-caught salmon, mackerel and sardines; pastured eggs; and sprouted nuts and seeds. Focus on the blood stabilizing effects of a diet high in natural, high quality fats.

Restoring your microbiome is critical because the internal community of living microorganisms supports healthy digestion and immune system response, among other useful functions. It is made up of trillions of cells that continually report to the brain on the state of the body.

The gut-brain axis is a pathway where this signaling takes place in both directions. When the organisms in the microbiome send distress signals, a host of health effects can occur, from depression and other psychiatric complaints to brain disease, stroke and seizures.

Toxins and antibiotics undermine the beneficial bacteria that are essential to maintaining this delicate internal balance. The resulting inflammation often presents as symptoms of mental illness.

Adherence to an ancestral, organic diet will do much to restore a damaged microbiome. Probiotic supplementation has proved to be extremely effective in treating depression through restoration of beneficial bacteria in the gut.

One or two teaspoons per day of fermented foods should be added to your list

of powerful safeguards against the ravages of the modern age.

Eating consciously and becoming aware of what – and how – we feed ourselves is a part of waking up. When we eat unconsciously, we deny our bodies the experience of nourishment.

Take time before each meal to really *take in* your food. Look at the colors, savor the aromas and appreciate the nourishment your meal is providing. This sends the first signals to the brain that it's time for digestion to begin.

Let your mouth water! Saliva contains powerful enzymes that pre-digest food as you chew. Chewing slowly and thoroughly will ensure that you receive the optimum benefits of these powerful digestive juices.

Finally, promote a feeling of gratitude for what you are about to consume. The journey our food takes from farm to table requires several levels of sacrifice. Acknowledging the part that you and others play in the lifecycle of your food will deliver the full range of nourishment that food can provide.

Food is information. With every bite we take, we program our bodies for tomorrow. What signals is your food sending?

Food choices are critical in all life stages, not just for young ones in Head Start. Traditional food practices are consistent with the 5 rules for eating away your depression.

As the Head Start consultant nutritionist, I am available to support families by discussing nutrition-related concerns via telephone. There is no charge for Head Start families.

E-cigarettes are the most commonly used tobacco product among U.S. middle and high school students.

Some e-cigarettes don't look like tobacco products, so some kids use them unnoticed in schools, including in classrooms and bathrooms.

An increasingly popular e-cigarette, called JUUL, is shaped like a USB flash drive.

JUUL delivers a high dose of nicotine. Nicotine is highly addictive and can harm adolescent brain development.

TOBACCO PRODUCT USE IN ANY FORM, INCLUDING E-CIGARETTES, IS UNSAFE FOR YOUTH.

My name is Hannah Glaser and I recently joined the Community Health team as a Community Health Advocate. I graduated from Oregon State University with a B.S. in Public Health in Fall 2017. I have experience working at the Oregon State University Women's Center, where I organized a variety of events related to the topic of feminism. I also interned with Planned Parenthood, where I provided sexual health education to youth. I am excited for this opportunity to work directly with people and I am hoping to make a difference within the community! In my spare time, I enjoy hiking in the Corvallis area and I love to read realistic fiction books.

Robert Lee Bayya – June 1952-January 2008 Happy Birthday, Dad

I greatly enjoyed sharing my life with you. You don't know how much I valued the friendship we created together. Every day that goes by, there's not a second that passes that I don't think about you.

Dad, you're greatly missed and appreciated. I'm 24 years old now. My life has drastically changed and took a turn for the worst. I'm finally growing out my hair, only 3½ months, but I look so much like you, Dad. I was even rocking the full moustache like you would.

Dad, I know I did some harsh things when you passed. Everyone betrayed me and left me empty with no thought of understanding my pain. I tried to stay in touch with our family, but they seemed to ignore me. I learned I have to forgive them, though, and let go.

It's very hard to have a relationship with my brothers. We're not close. It's me against the world, like 2 Pac says. I love you, Dad, and can't wait to see you again in heaven.

Respectfully,
Lakota Bayya

Holden receives STAHS award during Community Days

The Siletz Tribal Arts & Heritage Society presented the second annual Cultural Enlightenment Award on April 21 at the Lincoln City Community Days Banquet.

The banquet is held annually to celebrate the contributions and accomplishments of citizens who have improved the quality of life for those residing in the area. Sixteen awards were given during the evening's festivities.

The STAHS award is presented each year to a person who has taken measures to promote, celebrate and share the unique qualities, history and culture of indigenous peoples of this continent.

This year's recipient, Mike Holden, has worn many hats, including Lincoln

City's chief of police and mayor, director of the Chamber of Commerce and director of security for Chinook Winds Casino Resort.

He was one of the first people to be appointed to the Siletz Tribal Charitable Contribution Fund board and currently is the chairman.

From 1999 to date, the fund has donated \$11.6 million to nonprofit organizations in an 11-county service area that includes Lincoln County.

STAHS board members Cynthia Farlow and Glendora Osborn presented Holden with an etched glass award embossed with the STAHS basketweave logo and his wife, Bonnie, with a necklace created by Farlow.

UO offers in-state tuition to Siletz Tribal students

The University of Oregon continues to offer in-state tuition benefits to enrolled Siletz Tribal members regardless of their current state of residency.

The Residency by Aboriginal Right Program was first offered in 2001 to 44 Tribes that have aboriginal territories within the state of Oregon that pre-date 1850. Out-of-state students will pay in-state tuition, a \$20,000 savings each academic year.

UO offers bachelor's and graduate degrees in 272 academic programs and is one of only 36 public universities committed to scientific exploration and interdisciplinary research.

PSU Native Development Networking for Student Success

The NDNSS is a one-year support and mentor program for first generation, low-income, first-time students who will start at Portland State University in the fall.

The program is designed to help new students transition to PSU through academic support and community building activities. It focuses on American Indian/Alaskan Native experience and is ideal for new students who want a cultural community connection to the PSU campus

Participants engage in a two-week Connect Program & College Success Course prior to starting fall term to get a head start, connect with new students and peer mentors, and learn about PSU resources that are essential to student success.

Central themes of this course include exploring cultural identity, establishing community among incoming students and learning strategies for academic success, such as study skills, time management, money management and effective communication. The college success course is designed specifically to address challenges that diverse students sometimes encounter.

The course will provide an overview of the knowledge and skills necessary to successfully transition to college. Students will share their educational goals, personal strengths and cultural norms; identify areas in which they may need support; and become familiar with support services and other resources on campus and in the community.

Native students who have completed their first year at PSU are invited to apply to be a mentor in the program.

Trevino Brings Plenty (Cheyenne River Sioux), coordinator of Native American Student Services, will accept applications through August. For more information, contact him at 503-725-5348 or trevino@pdx.edu.

Higher ed website is one-stop shop for college grants

From Education Update, Oregon Dept. of Education, December 2016

The Higher Education Coordinating Commission (HECC) encourages students and families preparing for college to go to OregonStudentAid.gov to check out the more than 500 grant and scholarship opportunities.

It's a one-stop shop for information, including the Free Application for Federal Student Aid (FAFSA), Oregon Promise and the Oregon Opportunity Grant.

The HECC Office of Student Access and Completion (OSAC) awards more than \$80 million each year in state-funded grants and privately funded scholarships to help students meet their college expenses.

Avila named casino's Superstar employee for fourth quarter 2017

Siletz Tribal member Ediberto "Eddie" Avila was selected as the fourth quarter 2017 Superstar for Chinook Winds Casino Resort.

Avila has been employed with Chinook Winds in Player Services for more than four years. His outstanding service has been noted by many guests as well as by his supervisors. He has been nominated for the Superstar award multiple times in the past, as well as receiving all five BEACH stars.

Avila was nominated both by a guest and by a supervisor for his outstanding customer service and willingness to go above and beyond.

Avila received a check for \$1,000, his own parking space for the quarter and a plaque commemorating the honor. Additionally, a marble tile plaque, engraved with his name, will be displayed at the front entrance to the casino.

Courtesy photo by Chinook Winds Casino Resort staff
Brad Darcy, director of Human Resources, with Ediberto "Eddie" Avila

Chinook Winds directors, selected staff, Tribal elders and staff of the Siletz Tribal Gaming Commission attended the Superstar ceremony in the casino's convention center in January. One-, five-, 10- and 15-year employees also were recognized for their service to the organization.

Chinook Winds' BEACH core values form the foundation on which staff perform and conduct themselves daily. The core values, which spell out "BEACH," include: Be Passionate & Determined, Embrace Change, Accountability, Customer Service and Happiness.

Nominations go through several reviews before a final selection is made. With more than 800 employees and only four of these awards given each year, it's a real honor to be chosen as the Superstar. Avila was nominated alongside fellow team members Alice Cornejo, Greg Albrich, Joseph Padilla, Rob Brooks and Roy Cabal.

Hotel rates for Siletz Tribal members

Siletz Tribe hotel rates all year round! No longer do you have to guess at what your rate is and worry about higher rates in the summer. One rate for each hotel type is now \$79 for standard deluxe oceanfront rooms and \$99 for oceanfront junior suites.

Tribal members can maintain monthly golfing privileges at Chinook Winds Golf Resort

Tribal members receive free greens fees and can walk nine or 18 holes at no charge. If a cart makes golf more enjoyable, it is only \$10 for nine holes or \$15 for 18 holes.

New this year – We offer Tribal members monthly cart lease and golfing privileges starting at \$75/month.

- Tribal individual cart lease \$75/month
- Couples membership with cart lease \$125/month
 - Couple membership is eligible for any individual living in the same household as the Tribal member.
- Tribal family membership with cart lease \$150/month
 - Couple plus children in the same household under age 24 will have full golf and cart privileges (must be a licensed driver to drive the golf cart.)

Golf is an outstanding way to spend some time with your family and friends. Please take advantage of all of our employee benefits and spend some quality time outdoors this spring on the beautiful Oregon Coast.

Cory Camilleri is our golf pro at Chinook Winds Golf Resort.

To the editor:

The Siletz Tribal Royalty would like to thank everyone who helped make our Seminole pow-wow trip a success – this list includes our families, friends, community, Tribe and the Siletz Tribal Charitable Contribution Fund for contributing to our trip to the Seminole Tribal Fair and Pow-Wow in Fort Lauderdale, Fla., this past February 2018.

It was a wonderful experience for us to travel across the nation and participate in another Tribe's pow-wow celebration. It was an honor for us to represent our Tribe, family and community. A huge thank you to all who contributed to our experience of travel, culture and fun together.

With appreciation and love,
