

Directions

From the bridge at the south end of Siletz go south on Hwy 229 approximately 0.9 miles to the gravel road on the right just past Camp 12 Riverside Lane (yellow gate). Stay on the main gravel road. You will cross two bridges. At about 0.9 miles from the highway take a left (first left after crossing the second bridge). Go an additional 0.2 miles through the clearcut to a gravel pull out with a yellow gas line post on the left. Park here. The routes to the two falls locations are flagged with a combination of blue and blue/white stripe flagging. Facing the timber, the route to the upper falls is to the right and the route to the lower falls is to the left. No platforms. Difficult access. Suggest adults only at this site.
